

HIGHLIGHTS

The 5th General Assembly shows the progress of the project

The meeting, which was attended by both project partners and members of the External Working Group, focused on the progress of the last months on the harmonisation of the LCC and SLCA, the development of the SH2E Guidebook, as well as the planning of the validation and external consultation of the LCSA guidelines.

Successful 4th General Assembly of the project

The 4th General Assembly of the project took place on 19-20 January and was organised by GreenDelta in Berlin. The meeting was a great success as all the tasks of the project were reviewed and the tasks for the coming months were organised. We are approaching the final part of the project and the work is intensifying.
